## THE BUNGALOW

Experience The Bungalow, a Baja inspired cottage surrounded by lushly landscaped grounds and gardens. There are five distinct spaces to mingle within this inviting space: The Study, the Main House, the Deck, the State Room & East Garden, and the Game Room. The Bungalow's unique gathering areas flow together as seamlessly as the hours of an evening spent within its walls. Guests feel as if they are visiting a welcoming home by the sea — a place made of sunshine and atmospheric music, where a hand-crafted margarita pairs perfectly with easy conversation and good company.
